Aniquilator es un vehículo lento pero potente. Tendrás que superar diferentes pruebas para poder conducirlo. Te proponemos diferentes misiones. Suerte.

1- Enciende las luces. Crea una secuencia de luces aleatoria y en bucle.

2- Haz que camine hacia adelante durante 5 segundos mientras tiene las luces aleatorias puestas.

3- Graba diferentes sonidos de disparo y añadelos al programa. Mientras se mueve tiene que disparar al enemigo.

Después de crear un control remoto para Aniquilator. Ahora podrás acabar con el enemigo desde la comodidad de tu casa.

- Haz que Aniquilator camine hacia adelante cuando el sensor lo inclines hacia adelante. Enciende la luz verde al mismo tiempo.
- Cuando el sensor no tenga inclinación, Aniquilator debe de parar y encender la luz roja.
