# ВЕЛОКОТ

Выбирай модель для сборки.  
Вклеивай карточку сборки.

СВОБОДНАЯ СБОРКА

Составь программу для движения модели вперёд. Используй правильный порядок блоков (отметь его цифрами).

2

Добавь в программу блоки "Случайная мощность мотора". Обведи пару блоков, которую ты будешь использовать.

Запусти модель 3 раза из одной точки в одинаковом направлении.

Отметь место, где Велокот остановился в первую попытку =>

Во вторую попытку ==>

В третью попытку ===>

Объясни, почему расстояние оказалось разным.
