Retos: La resistencia necesita nuestra ayuda

1. Para despistar a los enemigos que luchan con el Imperio, mueve las alas durante una décima de segundo, luego cambia el sentido del movimiento de las alas durante otra décima, así sucesivamente.
2. Para destruir la Estrella de la Muerte, tu X-Wing tiene que aumentar la velocidad cuando la nave se incline hacia arriba. Así podrá coger más velocidad y bombardear al enemigo. Parará el motor cuando no detecte inclinación
